# **Material Safety Data Sheet**

LIME-A-WAY LP

# Section 1. Chemical product and company identification

Trade name : LIME-A-WAY LP

Product use : Delimer

Supplier : Ecolab Inc. Institutional Division

370 N. Wabasha Street St. Paul, MN 55102 1-800-352-5326

Code : 948877

Date of issue : 24-May-2006

EMERGENCY HEALTH INFORMATION: 1-800-328-0026
Outside United States and Canada CALL 1-651-222-5352 (in USA)

# Section 2. Composition, information on ingredients

Name CAS number % by weight

Phosphoric acid 7664-38-2 28 citric acid 77-92-9 5 - 20

#### Section 3. Hazards identification

Physical state : Liquid. (Liquid.)
Emergency : DANGER!

overview

CAUSES RESPIRATORY TRACT, EYE AND SKIN BURNS.

HARMFUL IF SWALLOWED.

Do not ingest. Do not get in eyes, on skin or clothing. Do not breathe vapor or mist. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling.

Potential acute health effects

Eyes : Corrosive to eyes.

Skin : Corrosive to the skin.

**Inhalation**: Corrosive to the respiratory system.

**Ingestion**: Harmful if swallowed. Causes burns to mouth, throat and stomach.

See toxicological information (section 11)

#### Section 4. First aid measures

**Eye contact**: In case of contact, immediately flush eyes with cool running water. Remove contact lenses and

continue flushing with plenty of water for at least 15 minutes. Get medical attention

immediately.

**Skin contact**: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while

removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes

thoroughly before reuse. Get medical attention immediately.

**Inhalation**: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult,

give oxygen. Get medical attention immediately.

No specific hazard.

**Ingestion**: Rinse mouth; then drink one or two large glasses of water. Do not induce vomiting. Never give

anything by mouth to an unconscious person. Get medical attention immediately.

# Section 5. Fire fighting measures

Flash point : > 100°C

Fire-fighting media and

instructions

: Use an extinguishing agent suitable for the surrounding fire.

Dike area of fire to prevent runoff.

Special protective equipment:

for fire-fighters

LIME-A-WAY LP Page: 2/4

> Fire fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full facepiece operated in positive pressure

#### Section 6. Accidental release measures

Personal precautions Ventilate area of leak or spill. Do not touch damaged containers or spilled material unless wearing appropriate protective equipment (Section 8). Stop leak if without risk. Prevent entry into sewers, water courses, basements or confined areas.

Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Methods for cleaning up

: If emergency personnel are unavailable, contain spilled material. For small spills, add absorbent (soil may be used in the absence of other suitable materials), scoop up material and place in a sealable, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate container for disposal .--

# Section 7. Handling and storage

Handling

- : Do not ingest. Do not get in eyes, on skin or on clothing. Keep container closed. Use only with adequate ventilation. Do not breathe vapor or mist. Wash thoroughly after handling. SAFETY REMINDER:
  - \* Never pour product into unlabeled containers \* Use only for recommended uses. Read label. \* Never take product home. Use only in workplace.

Storage

; Keep out of the reach of children. Keep container tightly closed. Keep container in a cool, wellventilated area.

Do not store above 50°C

### Section 8. Exposure controls, personal protection

**Engineering** controls

: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits. Provide eyewash and safety shower in area if contact or splash hazard exists.

**Personal protection** 

Eyes

: Use chemical splash goggles. For continued or severe exposure wear a face shield over the goggles.

Hands

: Use chemical-resistant, impervious gloves.

Skin

: Use synthetic apron, other protective equipment as necessary to prevent skin contact.

Respiratory

: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Name

**Exposure limits** 

Phosphoric acid

ACGIH TLV (United States, 9/2004).

STEL: 3 mg/m<sup>3</sup> 15 minute/minutes. Form: All forms

TWA: 1 mg/m<sup>3</sup> 8 hour(s). Form: All forms OSHA PEL (United States, 6/1993). TWA: 1 mg/m<sup>3</sup> 8 hour(s). Form: All forms

# Section 9. Physical and chemical properties

Liquid. (Liquid.) Physical state : Green. (Light.) Color : Faint odor. Odor : 2 (100%) Specific gravity : 1.2 (Water = 1)

Solubility : Easily soluble in cold water, hot water. LIME-A-WAY LP Page: 3/4

## Section 10. Stability and reactivity

Stability : The product is stable.

Reactivity : Highly reactive with alkalis.

# Section 11. Toxicological information

#### Potential acute health effects

Eyes : Corrosive to eyes.

Skin : Corrosive to the skin.

**Inhalation** : Corrosive to the respiratory system.

**Ingestion**: Harmful if swallowed. Causes burns to mouth, throat and stomach.

Chronic effects on

: Contains material which causes damage to the following organs: lungs, upper respiratory

humans tract, skin, eye, lens or cornea.

### Section 12. Ecological information

**Products of degradation**: These products are carbon oxides (CO, CO<sub>2</sub>) and water, phosphates.

#### Section 13. Disposal considerations

Waste disposal : The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of

spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority

requirements.

Waste : Unused product is D002 (Corrosive)

classification

Consult your local or regional authorities.

# **Section 14. Transport information**

Regulatory information	UN number	Proper shipping name	Class	Packing group	Additional information
<b>DOT</b> Classification	UN1805	Phosphoric acid, liquid	8	III	Limited quantity Yes.
					Special provisions A7, IB3, IP3, N34, T4, TP1

#### APPLIES ONLY DURING ROAD TRANSPORT

Any variation of the shipping description based on the packaging is not addressed.

# Section 15. Regulatory information

**HCS Classification** : Corrosive material

Target organ effects

**U.S. Federal regulations**: SARA 302/304/311/312 extremely hazardous substances: None.

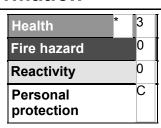

SARA 302/304 emergency planning and notification: None.

**TSCA 8(b) inventory** : All materials are listed or exempt.

California Prop. 65 : No products were found.

# Section 16. Other information

Hazardous Material Information System (U.S.A.)
